

Fleischmanns Theater Adaptive Reuse

The Village of Fleischmanns seeks to apply for a \$50,000 grant application to the NY State Homes and Community Renewal Community Development Block Grant Program for the Village of Fleischmanns adaptive reuse of the former Fleischmanns Theater. The Village will utilize this funding to identify the building needs and to develop plans and design guidelines. In addition, the Village will complete a feasibility study for a Youth and Community Center while still honoring the historical integrity of the building. This planning project is a vital first step in the preservation of this historic building and downtown development of the Village of Fleischmanns. Using the plans and study completed with this planning grant, the Village seeks to apply in the 2022 consolidated funding application year for implementation funding.
