

VILLAGE OF FLEISCHMANN'S
MAXBILT THEATER STEERING COMMITTEE
VOLUNTEER OPPORTUNITY
2022

The Village Board is seeking public participation in the redevelopment of the Maxbilt theater in Fleischmann's. As a first step, we are forming a steering committee as described below.

The theater building has been on the National and NYS Registry of Historic Places since 2014, and has in the past been a vibrant venue as a performance space and other related activities. More recently, two storefronts have been improved to provide for a restaurant and for administrative offices for the Village Code Enforcement Officer and a Delaware County Sheriff substation. The building needs considerable work to make it viable once again. Over the past several years, the building has been stabilized through grant funding raised by the Mark Project.

The members of the newly forming steering committee will help gather technical, professional, and financial support for the project. This year, the village will be submitting a significant grant request via the NYS Consolidated Funding Application process, in the July 2022 round of highly competitive applications.

If you wish to participate with or be on steering committee please send an email to the Fleischmann's Village Clerk village39@catskill.net.

Please indicate briefly what contribution you can make, i.e., - involvement in arts and entertainment fields, skills, technical resources, business and professional relationships, vision for the village theater, financial resources, and any other relevant contributions. There are many talented and resourceful residents and supporters of Fleischmann's. Together, we can restore some more of the beauty of our historic past and bring back the theater as an anchor property in the center of the village.
